The group of seven. Design agency.
June 2013 - Present.

I've conceived, designed & developed websites for Bristol Water, NHS, Harbour festival, WOMAD & others but my favourite was a Colston Hall interactive map.

Most of the sites I've built are custom themes on Wordpress but I've also done some .net CMS sites.

I like client meetings & designing user journeys but mostly I love interaction design. I also think it's important to know at least some of how to do everything in the creation of a product.
